Dated: 10-06-2020

Dear Colleagues,

I have recently joined in the position of Adviser, IES Cadre and consider it a privilege to closely serve the interests of the IES fraternity that has over the years taken long strides in contributing to the policy discourse of the country. As a first step, of the many to come, towards increasing the welfare and harnessing the capabilities of the IES, I consider it an honour to promote the achievements of each member of the IES fraternity.

2. An obvious achievement that is generally understated are the periodical reports prepared by IES officers analysing economic/social events in their specific sector of posting. These are available on the website of the concerned Ministry/Department. We, at the cadre, wish to give prominence to these reports by providing links to them on the IES website.

3. I request you to share details of any report to which you have contributed, with or without explicit acknowledgement, so that the IES cadre can showcase the achievements of its officers. Through this initiative we endeavor to be the repository of accomplishments of our officers that would serve as a beacon of unflinching ambition for serving and future IES Officers.

With regards,

Yours sincerely

(Rajiv Mishra)

To,  
All IES Officers
